How much force do you need to twist the cap off a bottle? How do you keep clothes smelling nice even a week after they’ve been washed? Just some of the questions that allow one of the world’s largest consumer goods giants to take its Indian brains global

Sitting inside the innovation centres of the world’s largest consumer goods company in suburban Bangalore, consultant Prasun Manchanda gets a glimpse of the latest in packaging and fragrance development, come up with new black plastic product? How big is the innovation funnel that P&G’s research and development units have been pouring new items into the market? What’s the right pressure for the plunger on a bottle of skincare cream? What should be the optimum force needed for twisting open a bottle cap?

Procter’s gamble
