

Shetty Sisters caught in a hair tussle

Sizzling and Gorgeous, the sexy Shetty sisters- Shilpa and Shamita, have been making waves since years and not without reason. The scorching sisters personify oomph with their dazzling curves. The siblings surely know how to turn up the heat.

There is no doubt that there is something unique about their sisterly bond. However like every sisterly bond there is friction, friction not of love- the 2 sisters absolutely adore each other, but of the unsaid protectiveness which can only happen between sisters. Shilpa falls suit to being the typical elder sister albeit with a protective streak which like any younger sibling Shamita too mistakes it for being over-protectiveness.

Recently Shilpa and Shamita had an argument wherein Shilpa confessed that being the elder sister gave her the license to advise Shamita after all that advice came not out of a need to direct but to be able to guide her younger sister. Ultimately Shilpa, in her trademark smile, confessed that she got her way as “Shamita had no choice but to listen”.

Off late Shamita had been facing a lot of hair-related issues and was very skeptical to try any products on her hair fearing further damage. Shilpa suggested that Shamita use Pantene products not just because she is the brand’s ambassador but reasoned that Pantene products truly work.

Initially Shamita was hesitant as she wanted to prove her elder sister wrong but once she started using Pantene products she noticed a visible change in the quality of her hair to a point where now Shamita swears by their effectiveness.

Shilpa has a proud smile on her face as Shamita now agrees that not only are Pantene products the most effective but also that elder sisters may just always be right.
